Subject: Changes to Proposed Permit Implementation

Dear Bobbie Garcia:

Re: Changes to Proposed Permit Implementation Regulations For 15-Day
Comment Period -

Comments to Section 21660.2 (c)(3) Page 14 Lns. 44-48 inclusive.

I hereby submit further text changes to Lns. 44-48 of the sections listed above for your consideration. Proposed changes and deletions are in italics.

"(3) EAs may, *and should*, undertake additional measures to increase public notice and to encourage attendance by any persons who may be interested in the facility that is subject of the meeting, including but not limited to additional posting at the facility entrance, noticing beyond 300 feet if the nearest residence or business is not within 300 feet of the site, posting in a local newspaper of general circulation, and multilingual notice and translation, and multiple meeting dates, times and locations. *EAs, must, in any event, give actual and effective notice to at least 65 % of the community within a quarter mile radius of the facility. Effective notice means using all available census data and softwares to determine the audience to be given notice, and to then determine which methodology (i.e. telephone call, mailings, postings, public service announcements (radio,t.v.) to be employed to achieve communication of notice of the hearing to 65 % of the community within a quarter mile of the applicant facility.*
